

CREXENDO'S CLOUD COMMUNICATOR

Robust, Cloud-Based Call Control

Crexendo's Cloud Communicator combines a softphone with powerful communication and collaboration features, providing businesses with the perfect tool for employees. With all your communication resources conveniently accessible on one platform, Crexendo's Cloud Communicator provides a true Unified Communications as a Service (UCaaS) solution.

Cloud Communicator Features

As a standard offering on the Crexendo Cloud Communication Solution platform, the Cloud Communicator application enhances any desktop user's experience with call control from any PC or Mac computer. This robust, feature-rich application is ideal for any sized business.

Cloud Pop™

Enjoy screen pop technology that allows for CRM and other cloud-based application integrations.

Drag & Drop

Easily answer, transfer, or make a call from the desktop with a click of the mouse. Drag and drop a call to anyone in your directory for simple call transferring.

SMS & MMS

Send and receive texts from your business number without the need for a personal cell phone.

Conference Bridge

Setup conferences with ease by dragging and dropping participants into your personal conference bridge, capable of supporting up to 30 parties.

Chat

Internal users get access to chat that includes ACD statistics and real-time call analytics.

Collaboration

Enjoy screen sharing, file sharing, video conferencing, electronic document signature, and conference recording and playback with CrexConnexe.

POWER PRODUCTIVITY UCaaS and Cloud Communicator from Crexendo

Crexendo's robust UCaaS platform is one of the strongest in the telecom industry and the enhanced capabilities provided by Crexendo's Cloud Communicator application makes business communications easy, productive and efficient at a fraction of the cost of traditional telecom platforms.

Communicate & Collaborate Anywhere

Access advanced telephony features and collaboration tools from anywhere, any time, on any device.

Lower Your Total Cost of Ownership

Reduce your current telecom costs by 25-50% costs with low or no upfront capital expenditure and a fixed monthly bill.

Future-Proof Your Phone System

Enjoy a secure, scalable solution with automatic system updates, lifetime warranty, and free on-going support.

TAKE A TEST DRIVE!

We invite you to take a test drive of this great application and would be honored to do a presentation of the product at any time for your further evaluation.
